HOSPITAL ED WORKSTATION
Return On Investment

Why GD CAREpoint?

- Reduce door-to-treatment times for Stroke, STEMI and Trauma.
- Data management tools for facilitating CQI and risk reduction.
- Improve call handling and preparation for inbound EMS.
- Improve workflow with trending information with electronic forms.
- Advanced notifications to remote Cardio, Neuro and Trauma teams.
- Integrate HIPAA secure, FDA Listed and IT friendly telemedicine.
- Simplify information reception, distribution and documentation.
- Consolidate ED equipment and simplify operation.
- Reduced equipment downtime and staff training.

Managing patient care in the emergency department is complex. Integrating prehospital care and critical services like trauma, cardiology and neurology magnifies it. That’s why you need the GD CAREpoint™. GD CAREpoint™ improves patient care while reducing costs through process improvement by managing all EMS activities in one powerful workstation, delivering a strong, multifaceted Return On Investment.

WHO BENEFITS
Patients of course, but you also.

teneral-devices.com/ROI

MANAGING PRE–HOSPITAL PATIENT CARE IS HARD. CHOOSING GD CAREpoint™ IS EASY.
