Decades

of Experience

Click get an Interpreter! GD e-Bridge Interpreter can also be your highly configurable mobile telehealth workflow app. With built-in **live multi-language interpreters** your patient interactions, team communication & case management become even more seamless.

Reduce time to treatment, risk & costs.

- ▶ Virtually live Vs. telephonic or onsite translators; quicker access to lower cost **medically certified interpreters** in your patients native language
- ▶ GD e-Bridge module that requires no new application or capital purchases
- ▶ **No set-up, no contract, only pay for interpreters time used**
- ▶ Simple to use, highly secure & requires no special IT involvement
- ▶ Ensures compliance with the Joint Commission language standards
- ▶ Most highly qualified, best suited quality interpreter(s) at the right time
