

FormsPRO

Any data, anywhere, at anytime

Still using Paper Forms FOR EMS AND THROUGHOUT THE HOSPITAL?

Handwriting Conversion

Usable data from paperless forms is vital to improve patient care and maximize hospital efficiencies. GD formsPRO converts your handwriting into digital secure information that is reportable throughout your health network.

Trending Reports + Data

Configurable Forms

Are you looking for easy forms with data collection and reporting that works just like paper forms?

Forms with handwriting conversion

Replay all EMS calls

Look no further...

DON'T BE LEFT SHUFFLING THROUGH DETERIORATING PAPER FORMS

Get more out of your forms process with the **GD CAREpoint™ Workstation**
