

Simply Seamless Patient Care with CAREpoint 3

GD's CAREpoint Workstation connects EMS and ED teams to improve communication and help provide Simply Seamless Patient Care. By harnessing the power of responsive innovation, communications data is consolidated, reporting and recording is automatic, and network security is IT friendly, all in one SolaaS platform which is necessary for today's prehospital care.

Benefits of the CAREpoint Workstation include:

- Shortened Door-to-Treatment Times
- Reduced EMS Wall Times
- Reduced Patient Handoff Time
- Improved Quality Assurance
- Reduced Costs and Risk
- Better Access to 12-Lead Data
- Improved Reporting and Documentation
