

D-ScribeX Intelligence Hub

Total Calls by each line used with CAREpoint Workstation

Average time it took for a CAREpoint call to be answered, easily replay phone and radio calls.

Each event, form, case, message, call, email, and fax within e-Bridge and CAREpoint

D-Scribe X enables automatic recording and reporting of data. It empowers medical teams with:

- *Secure access to all pre-hospital and hospital videos, images and voice communication, data and reports*
- *Efficient case management and team and process workflows*
- *Access to information for quality assurance, benchmarking, certifications, training and legal purposes.*
