

# 12-Lead Management

*Securely Share & Store Your 12-Lead Reports*

**12-Lead Reports** are critical to STEMI care. The ability to easily and instantly share and communicate with the entire team is imperative to reduce FMC-2B and false activations. GD solutions like CAREpoint workstation and e-Bridge communication platform make simple unified 12-Lead management and mobility a reality.

### ZOLL/Phillips

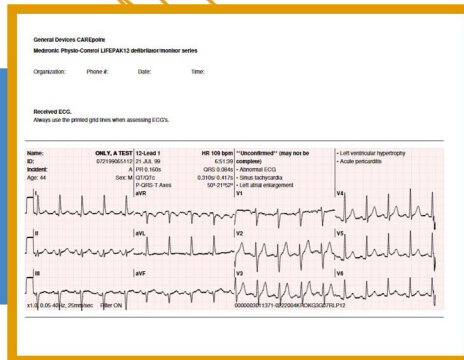

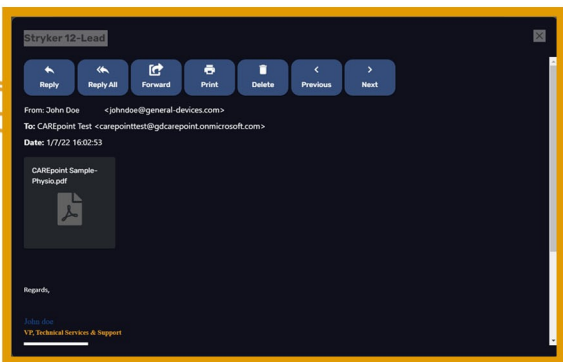

**Time is muscle. Knowledge is power.** With over 30 years of experience in EMS-hospital communications, GD solutions are Simply Seamless for streamlining STEMI patient care to improve outcomes and save lives.
