

RETURN ON INVESTMENT

Simply Seamless Patient Care

OUR INNOVATIONS

GD CAREpoint

CAREpoint Workstation consolidates EMS communication, including forms, data, 12-leads and calls.

GD e-Bridge

e-Bridge is a communication platform that enables EMS and hospital teams to share pictures, audio, video and livestream

GD D-ScribeX

D-Scribe X stores all patient, EMS, and hospital data in one place

OUR SOLUTIONS

Quicker and more efficient patient hand-off & faster time-to-treatment

ACCELERATE

Better preparedness for incoming patients & offer telehealth for treat in place, alternate destination and ET3

PREPARE

Easy retrieval of case information with timestamping, recorded audio and video and central storage

ORGANIZE

Cost savings on reductions in re-admits, activations, documentations and consolidation

SAVE MONEY

Mitigate risk with securely documented communications between patients and healthcare teams

REDUCE RISK

Secure archiving of communications and workflow streamlining all in real time

STREAMLINE

RESULTS BY THE NUMBERS

15 minute door-to-balloon time **Baystate Medical Center** in Massachusetts achieved a door-to-balloon time of 15 minutes by customizing e-Bridge for intaking STEMI patients. "This is a historic record for Baystate Health," said ACS/STEMI program coordinator Alina Capatina.

- **15 minute (20%) door-to-needle time decrease, and 2.4 minute (29%) door-to-physician time improvement**

Southeast Health Medical Center in Alabama decreased their door-to-needle time, improved their door-to-physician time and became a Certified Comprehensive Stroke Center in part by using e-Bridge and CAREpoint to manage all EMS-related activities, including prehospital stroke notifications and creating an overhead paging system for case alerts. GD's solutions "connect the dots for our Stroke Team and **enhance internal communication** between team members," said stroke program coordinator Ramona Johnson.

40% decrease in false activations **HCA Chippenham** in Virginia decreased false activations by expanding their use of e-Bridge and CAREpoint to all teams.

\$8,000/year savings in forms **AMITA Health St. Joseph Hospital** in Illinois saved \$8,000 annually by using the forms features in their CAREpoint and cancelling their third party forms solution. AMITA has long-relied on what EMS system coordinator Philip Laier describes as GD's "constant reliability."

Northwestern Medicine Central DuPage Hospital in Illinois reduced their average radio call to 2.5 minutes and reduced nursing staff hours by monitoring trends, ultimately **saving 14.5 hours per month** of patient care time with their e-Bridge and CAREpoint."

Naperville Valley Fire Department in Illinois **reduced time-to-treatment by 20-30 minutes**, achieved an on-scene time of 5 mins, transport time of 5-12 minutes and reduced stroke treatment times by 20 minutes using e-Bridge for prehospital notifications.

Discover GD's Communication Solutions

SIMPLY SEAMLESS PATIENT CARE

Team Communications for Communities and Regions, Hospitals and First Responders

GD is a Healthtech company specializing in communication solutions that help EMS and hospitals deliver simply seamless patient care.

Powered by responsive innovation, GD's user-friendly solutions facilitate rapid, secure, voice, telehealth and data sharing communications across care teams to help save time, money and lives. Backed by a 40+ year history and thousands of implementations, GD is a widely revered industry leader.

GD creates communication solutions that result in faster treatment, enhanced team sharing and better patient outcomes. We understand how important it is for you to be able to quickly communicate with your team, accurately record and instantly share data to help streamline care and foster a more positive outcome for your patients. We are constantly developing and improving products that aim to improve team efficiency while reducing medical error, costs and liability.

We are committed to improving the health and well-being of the public at large through Responsive Innovation. That is, we challenge the status quo with innovative solutions to respond to the evolving needs of our clients and the shifting landscape of the healthcare industry. Our user-friendly solutions facilitate secure, mobile communications and rapid data sharing across acute and non-acute care teams to help healthcare providers deliver the right care at the right place and the right time.
